Society Award 2016: All the interested applicants are advised to mail (mrfs_w_kvns@yahoo.com) their professional bio-data along with relevant documents latest by **10th November, 2016.**

International Conference on Medicinal Plants and Management of Lifestyle Diseases (ICMPMLD)

17-18 December, 2016

-: **Venue** :-
Seminar Hall, Institute of Agricultural Sciences,
Banaras Hindu University, Varanasi

Important Dates
Abstract Submission-15th November 2016
Full Paper Submission-15th November 2016
Bio-data Submission-10th November 2016

Organized by
Mahima Research Foundation & Social Welfare
194, Karaundi, BHU, Varanasi-221005, www.mrfs_w.org
E-mail: mrfs_w_kvns@yahoo.com, mahimafound@gmail.com

Oral Presentation: Original research paper on the theme of the conference will be accepted for presentation. The screening committee would go through the abstract (see the guideline for abstract submission) and decide about the acceptance for the oral presentation will be allocated a total of 10 minutes (including discussion time) to make the presentation. Presenter should avoid lengthy introductions and deal move with the subject.

Poster Presentation

- Poster papers are invited for presentation. Each delegate can present two posters.
- Abstracts are invited on any subject relevant to the theme of conference.
- The name of the presenting author with e-mail should be given at the end.
- The abstract may be submitted through e-mail and /or by post along with a soft copy.
- The detailed specification for preparing the poster paper (size 4.5 ft x 3.0 ft) would be mailed to those authors whose abstract are accepted for presentation.

Paper/Articles Submission: Selection of Papers for presentation in the Conference will be based on blind review of the abstract of 250 words. The authors should clearly mention under which theme the abstract is to be included. One soft copy in MS Words 2003/2007 of the full length accepted paper for presentation will have to be submitted to the conference secretariat by **15th November 2016** through e-mail: **mrfsw_kvns@yahoo.com**. Papers must include a clear indication of the purpose, methodology, major results and key references. Selected papers shall be published in **Conference Book** entitled **“Medicinal Plants and Management of Lifestyle Diseases”** along with ISBN or **“Indian Journal of Agriculture and Allied Sciences”** (ISSN 2395-1109, e-ISSN 2455-9709) in free of cost.

Registration Details: The Registration form along with their bank draft covering registration fee and accommodation charges (If required) should be reached before **15th November, 2016**.

Conference Objective: The **“International Conference on Medicinal Plants and Management of Lifestyle Diseases (ICMPMLD)”** aims to bring together leading academicians, scientists, researchers and research scholars to exchange and share their experiences and researches about the scientific research work done in different disciplines related to Ayurvedic Medicine with special emphasis on medicinal plants . It also provides the premier interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Ayurvedic Medicine. The broad areas which will be covered in this conference include-

- Promotion of holistic lifestyle (body, mind, and spirit) as the primary measure to prevent and combat non-communicable diseases (NCDs).
- Promotion of multisectoral actions aimed at reducing the level of exposure of individuals and populations to the common modifiable risk factors for NCDs, while strengthening the capacity of individuals and populations to make healthier choices and follow lifestyle patterns that foster good health.
- Exploration of available effective instruments, strategies and policies to address the epidemic of NCDs, including health system strengthening and promoting access to health care.
- Accelerating integration of the prevention and control of NCDs into the Global development agenda.
- Emphasize and affirm the universal right for all to access health education and healthcare to prevent and to treat NCDs.
- Support and promote education about and the active implementation of a healthful lifestyle, starting as early in life as possible, and continuing throughout the life cycle.
- Showcase practical, evidence-based initiatives and approaches for the prevention and amelioration of NCDs, targeting all age groups and highlighting the importance of positive choices.
- To highlight evidence relating to the impact of NCDs on health and socioeconomic outcomes.
- Create an understanding that many effective lifestyle-based interventions come at minimal monetary cost, and help address the enormous disparities currently existent in healthcare and health promotion.
- Life style Disorders
- Auto Immune Disorders
- Metabolic Disorders
- Genetic Disorders
- Innovation in Medicine and Healthcare
- Evidence-Based Lifestyle Factors that Enhance Cardiovascular, Cognitive, Metabolic and Hormone Function
- Biochemistry & microbiology in Ayurvedic Research
- Biotechnology and Ayurveda
- Pharmaceutical science & Pharmacology in Ayurvedic drug science
- Stress & Psychosomatic Disorders
- Anxiety Disorders
