Navi Mumbai**

ORGANIZED BY :

**Ministry of AYUSH –
Government of India**

**Co-organizer – AIIA ,CCIM,MUHS,
Dr. G.D. POL FOUNDATION
YMT AYURVEDIC MEDICAL COLLEGE**

INTRODUCTION -

As per guidelines, every drug has to be standardised before using in finished products. Some drugs are substituted as original one is endangered or on the verge of extinction or adulterated to make profit. Standardization becomes crucial at this point.

Scientific database of medicinal plants is needed for cultivation of plants. Considering these factors, standardization and tissue culture will be topics of interest.

Activity of medicinal plants should be confirmed through animal experimentation in preclinical studies. This approach is highly appreciated for integration of Ayurveda with modern science.

“Bhavmishra 2019” highlights these topics for betterment of ayurveda today and tomorrow. Dravyaguna department of Dr.G.D.Pol foundations Y.M.T.Ayurvedic Medical College has conducted various workshop, CME, Seminars and exhibition.

This seminar is focused on the topics which are related to Dravyaguna post graduate syllabus, current research in Dravyaguna and its applied aspects to motivate the post graduate students.
