Department of AYUSH, Govt. of Gujarat

The Department is managing all types of activities like guiding inspecting, maintaining, developing, financing, administrating as well as all technical responsibilities regarding education, health services, herbal gardens, manufacturing of traditional Ayurvedic medicine, registration of practitioners, training of all technical staff and research etc. Echoing with the definition of Health by WHO (World Health Organization) i.e. Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity, Ayurveda conforms the health means not only absence of Physical diseases but association of Mind and psyche in the Health and happiness of Health.

The aim of any medical system is to cure the ailment and provide healthy society to serve nation. Ayurveda and Homoeopathy with their holistic approach keep healthy people in healthy condition as well as provide root cause level management of disease. The department of AYUSH (Indian System of Medicine & Homoeopathy) plays a vital role in keeping rural people healthy.

About Government Ayurved College, Vadodara

In 1945, earliest seeds of Ayurveda teaching and learning was laid down with the formation of Vaidyak Mandal under the reign of Hon. Maharaja Sayajirao Gaikwad. In the beginning, it started with imparting knowledge of Ayurvedic medicines & Sanskrit to the students. After independence in 1964 DSAC, in 1966 BSAM courses in later the formal start of BAMS course as per gazette. Government Ayurved college, Vadodara achieved many milestones in this tenure. Being one of the oldest college, there is a huge family of Ayurveda Graduates extended all over India. The college is enabled with an upgraded Post Graduate Department in the subject of Dravyaguna and Rasashastra-Bhaishajya Kalpana. The institute have well equipped Departments, energetic teachers and infrastructure for gaining an Academic and research knowledge. The Department of Dravyaguna is one of the active Department working in the medicinal plant sector and contributes hugely to upgrade Ayurveda. It is a prime department of Ayurvedic Pharmacology, medicinal plant study, Clinical assessment and covers Materia Medica of medicinal plants.

About GUJCOST

The Gujarat Council on Science and Technology (GUJCOST) was established in September, 1986, to play a catalytic role in promoting the use of Science and Technology in the development process of the State. The S&T Council was constituted with a view to develop technologies appropriate to and in harmony with present conditions. The Council has been catalyzing interaction between developers and users of technologies, by bringing on a common platform to training Scientists and Engineers on the one hand and policy makers as well as administrators on the other.

Prologue

The conventional Ayurvedic scenario is changed, the medicinal herbs has need to go through various norms, guidelines, evaluation methods, etc. before using for Pharmaceutical purpose or administration in patients. These evidence based information is a need of hour and it should also be rationally verified to the compatibility of basic principles of Ayurveda. It is observed that there is a partial information among Ayurveda sector regarding this validation, assessment and evaluation. Hence to explore all these issues in a fixed topics the seminar is planned to understand the relevance of it. The novel discussions and true outcome of the seminar will must benefit the Ayurveda.
